

Hi, My Name is Sasank

- Founder of Von Neumann AI
- Former CTO of [Qure.ai](#)
- Co-author of [PyTorch](#)

The screenshot shows the Qure.ai website homepage. At the top, there is a navigation bar with links for Products, Impact, Evidence, Insights, Contact Us, Try Qure App, and Global. The main headline reads "World's Most Adopted Healthcare AI". Below the headline, it says "AI For Lung | Heart | Neuro | MSK" and features a "Set up a Private Demo" button. To the right, there is a collage of medical images including a chest X-ray with a heatmap overlay, a brain scan, a knee joint, and a globe icon.
